

Product: Chicken Anti-Ac-K14 Histone, affinity purified, react with histone with acetylated lysine-14 (K14) from various species including human, mouse, rat, bovine etc.

Catalog Number: AC0005

Lot Number: 120214

Size: 0.1ml affinity purified Abs in PBS with 0.02% Na Azide

Immunogen: Histone peptide contains acetylated Lysine-14

Specification: AC0005 binds to histone protein with acetylated lysine-14 of many different species including human, mouse, rat, bovine, rabbit, xenopus etc in Western Blot analysis.

Suggested Usage: The product can be used at 1:1,000 to 1:5,000 for immunoblot testing. The product can be used in ELISA, Western Blot and other immuno-assays User needs to optimize the concentrations in assay. The product can be used in combination with GeneTel's anti-IgY conjugates such as RCYHRP (anti-IgY HRP) and RCYAP (anti-IgY AP) Western Blot analysis.

Short Term Storage: 2-8°C for one week.

Long Term Storage: -20°C as an undiluted liquid for up to two year. Please feel free to call us if you have any question regarding to this product or any other GeneTel's product.

Western Blot analysis of chicken anti-K14 histone (AC0005) shows that the Abs reacts with the acetylated histone proteins on calf thymus protein extract.
